ABSTRACT

Designed to assist the motion picture or television producer, this directory lists organizations (producers, distributors, talent agencies, laboratories, etc.) by geographical section in Florida. Each entry includes the company address, telephone, services available, a contact person, and credits. (DAG)

****
* Documents acquired by ERIC include many informal unpublished *
* materials not available from other sources. ERIC makes every effort *
* to obtain the best copy available. Nevertheless, items of marginal *
* reproducibility are often encountered and this affects the quality *
* of the microfiche and hardcopy reproductions ERIC makes available *
* via the ERIC Document Reproduction Service (EDRS). EDRS is not *
* responsible for the quality of the original document. Reproductions *
* supplied by EDRS are the best that can be made from the original. *

INTRODUCTION

During recent years, with the trend of shooting on location firmly established, Florida has come into its own. Ideal climatic conditions in conjunction with unmatched natural beauty have made our state one of the most desirable locations for motion pictures as well as television production.

The leaders in our state three years ago recognized the tremendous assets Florida has to offer and established an office to assist the industry in shooting here. With the Governor's support this program has been highly successful in attracting production to the state.

This publication is one of several documents designed to inform the producer of the assets Florida has to offer in terms of technical personnel, equipment, facilities and locations.

For additional information and confidential assistance, please contact us.
